
Q16 Collection

Q16 Collection

O mundo está em constante mudança assim como as necessidades de arrumação. Com a utilização cada vez maior das clouds, as estantes começam a ter um peso decorativo nos escritórios modernos. O sistema estantes Q16 com as suas linhas simples é o palco perfeito para realçar os nossos objetos. A Q16 pode ganhar novas formas e tamanhos, através dos seus componentes e acessórios para melhor corresponder com o estilo de cada cliente.

Partindo de uma configuração simples com um tensor X, modifica-se e adapta-se de acordo com as preferências e necessidades de cada um.

DIVISÓRIA

Q16 permite criar zonas distintas dentro do mesmo espaço utilizando o acessório “costa” para criar um efeito de transparência, consoante o número de “costas” que utilize.

PRATELEIRA TABULEIRO

Na continuidade de um escritório moderno e versátil introduzimos o elemento tabuleiro às nossas prateleiras de forma a conseguir uma melhor arrumação para os mais diferentes objetos.

CORES

Numa versão minimalista e atual o sistema Q16 tem como cores base o branco, o preto e o antracite e para que cada cliente possa adaptar ao seu gosto as signal colors são o amarelo e o vermelho.

ESTRUTURA

A base de toda a linha Q16 é constituída por tubos quadrados de 16mm e prateleiras em chapa de 1mm, apesar de um aspecto muito elegante suporta até 60 kg por prateleira, o que as tornam aptas para qualquer utilização em casa ou escritório. A estabilidade das estantes são garantidas pelos acessórios, tensores e fundos. As prateleiras em formato tabuleiro são feitas em tubo rectangular 50 x15.

The world is constantly changing as well as the storage needs. With the increasing use of the clouds, the shelves begin to have a decorative weight in modern offices. The Q16 shelving system with its simple lines is the perfect stage to highlight our objects. The Q16 can gain new shapes and sizes, through its components and accessories to better match the style of each customer. Starting from a simple configuration with a tensioner X, it is modified and adapts according to the preferences and needs of each one.

PARTITION

Q16 allows you to create distinct zones within the same space using the “back” accessory to create a transparency effect, depending on the number of “backs” you use.

SHELF TRAY

Following a modern and versatile office we introduce the element tray to our shelves in order to obtain a better storage for the most different objects.

COLORS

In a minimalist and actual version, the Q16 system has his standard colors on white, black and anthracite so that each customer can adapt to their taste the signal colors that are yellow and red.

STRUCTURE

The base of all the shelves consists of the structure with 16mm square tubes and 1mm sheet metal shelves. For greater stability enhancement the shelf is composed of an x-shaped tensioner made of 6mm tubular steel. The tray shelves are made with a 60x20mm tubular ring.
